PRESS INFORMATION

CLARIFICATIONS FROM THE INSPECTORATE OF GOVERNMENT

We have noted that there is a lot of falsehood in the media especially the online news sites regarding the investigations of Justine Bagyenda, the former Director Supervision in Bank of Uganda (BOU) and now investigations and interdiction of the Executive Director of Uganda Investment Authority (UIA), Jolly Kaguhangire. While the Inspectorate of Government has been giving a position on these matters, some reporters have decided to rely more on other sources than our information.

This is to inform you that the Inspectorate is conducting investigations on allegations of the wealth of Justine Bagyenda, and once complete, the report will be shared with the relevant authorities only. The Information that is circulating that the Inspectorate is not conducting the investigations is false.

In addition, this is to inform you that the Inspectorate is conducting investigations on the recruitment process in UIA and these investigations are on-going. Once concluded, the report will be shared with the relevant authorities as well. The IGG in person has not had any meetings with the interdicted ED of UIA. Rather investigators from the Inspectorate of Government went to UIA to collect documents and in the process met the ED of UIA.

This is to request journalists to always crosscheck their facts before publishing/broadcasting.
